ADDITIONAL EXPERIENCE

MY PERSONALITY ABOUT ME

Marketing-minded, strategy-driven, and occasionally lost in illustration.

I am an International Economics and Trade undergraduate with a strong interest in **brand marketing, content strategy, and audience engagement**. My experience spans B2B marketing, social media operations, campaign planning, and creative projects, allowing me to explore how ideas can be transformed into meaningful brand experiences.

With a curiosity for both **creative storytelling and data-driven thinking**, I enjoy turning consumer insights into clear strategies and bringing ideas to life through hands-on execution. Beyond marketing, illustration remains an important part of how I observe, create, and communicate.

FOSHO DAY 2026

Building an Integrated B2B Brand Experience for an AI Marketing Company

Role
Marketing Intern

My Scope
Product Communication
Content & Creative Briefs
Project Orchestration
Brand Activation

300 Attendees

16 Speakers

80 Leads

21 Qualified Leads

PRODUCT & COMMUNICATION CONTEXT

WHAT I NEEDED TO UNDERSTAND —————> Company Product

Media AI	Growth AI	Social AI	GEO Atlas
Automated media planning, buying and optimization	Affiliate recruitment, management and performance growth	Creator matching and campaign coordination	Improving brand visibility across AI search environments

THE COMMUNICATION TASK

Four different AI solutions, a complex product architecture and multiple event messages needed to be translated into communication materials that audiences could understand quickly.

My task

- Understand
- Prioritize
- Simplify
- Structure
- Brief

EVENT CONTENT

- Product
- Brand Globalization
- Media Transformation
- Cross-border AI Ecosystem

ORCHESTRATING A CROSS-FUNCTIONAL PROJECT

08 JUL → 18 AUG
2026

FROM RESEARCH AND CREATIVE DEVELOPMENT TO LAUNCH AND POST-EVENT AMPLIFICATION

MY ROLE • Maintained the master project tracker, followed up on key deliverables, and used weekly Monday reviews to align progress across teams.

SELECTED PROJECT MILESTONES

WORKSTREAMS I TRACKED

EXPERIENCE	CONTENT	CREATIVE	COMMUNICATION	DELIVERY
Venue Gifts & F&B Guest journey	Product messaging Brochure & boards Event copy	KV Visual assets Print production	Media outreach Partners Promotion	Timeline Responsibilities On-site control

Selected milestones distilled from the internal project tracker; detailed task ownership and deadlines were managed in the working file.

FROM REQUIREMENTS TO EXPERIENCE

Selecting the Right Physical Context for FOSHU DAY

STEP 01 | DEFINE REQUIREMENTS

What did the event need?

Audience Capacity

Can it accommodate the expected guest volume?

Brand Fit

Does the venue match a technology / premium B2B event?

AV Capability

Can the stage and LED setup support the visual system?

Accessibility

Is it convenient for invited guests?

Networking Experience

Can conference, networking and dinner coexist smoothly?

Budget Feasibility

Is it achievable within project constraints?

STEP 02 | COMPARE OPTIONS

Criteria	Chuangxin Square	Qianhai Block5	Kapok Hotel Mixc Branch
Capacity	400m²	350m²	450m²
Brand Fit	●●●●●	●●●	●●●●●
AV Setup	●●●	●●●●●	●●●●
Accessibility	●●	●●●●	●●●●●
Networking	●●●●	●●●	●●●
Cost	12800¥	31000¥	2800¥

STEP 03 | DECISION

Selected Venue

Shenzhen Bay Kapok Hotel

Selected as the final venue based on its balance of event capacity, visual environment, technical feasibility and guest experience

Shaping Communication Through Iteration

BRIEF → ITERATION → FINAL

CASE 01 | Brochure ITERATION

Too much copy
Dense information
Weak hierarchy
Complex diagrams

My Contribution

- Product messaging
- Content hierarchy
- Visual concept references
- Brief development
- Review & refinement
- Visual production
- collaboration with designer

→ CASE 02 | Exhibition Board

Brief
AGENTIC MARKETING
Marketing AI
营销届的 Autopilot
类似卫星/网络结构，链接四个产品。

MY DECISIONS

- Shortened product copy
- Reordered key sections
- Moved core product explanation into the central reading flow
- Reduced diagram complexity
- Worked with the designer on multiple layout iterations

MAPPING THE ON-SITE EXPERIENCE

Connecting space, touchpoints and operational ownership

I translated the venue layout into an operational experience system—mapping guest movement, brand touchpoints, material placement and team ownership across key zones.

Guest Journey

I mapped physical brand and service touchpoints across the venue to ensure that information, wayfinding and guest services appeared where they were needed.

OPERATIONAL OWNERSHIP

Each zone was assigned clear ownership in the execution plan

Touchpoint	What had to work
Entrance	Wayfinding
Registration	Check-in & guest materials
Brand Area	Product communication
Stage	Visuals & AV readiness
Networking	Hospitality & materials
Dinner	Guest transition & service

TOUCHPOINT PLANNING

- Wayfinding
 - Entrance & directional signage
- Brand Communication
 - Boards, brochure & visual displays
- Engagement
 - Photo area & QR touchpoints
- Hospitality
 - Tea break, VIP room & dinner

FROM KV TO SPACE

Translating one visual narrative across the event environment

Once the final KV was approved, I coordinated its adaptation across stage visuals, display boards, signage, invitations and printed materials. I worked with designers to refine hierarchy, scale and consistency so the same visual narrative remained recognizable across both digital and physical touchpoints.

WHAT THE DATA SHOWED

FOSHO DAY attracted commercially relevant B2B audiences and converted offline engagement into measurable lead outcomes. Among 514 registrations, 86 were identified as high-potential prospects, with 19 flagged for priority follow-up.

**Prospect tiers were internally identified from the registration pool based on potential business value.*

KALODATA EXHIBITION

FROM PRODUCT EXPOSURE TO LEAD GENERATION

Unlike FOSHO DAY, Kalodata was a more acquisition-led B2B activation. The focus shifted from building a broad event narrative to product exposure, on-site conversations and lead capture.

I supported the adaptation of FOSHO’s visual system across **booth graphics, product displays and on-site communication materials**, ensuring consistency between 2D assets and the final physical environment.

WHAT I TOOK AWAY

FOSHO

FSD2026

THE AGENTIC WAVE
智潮涌动 品牌无界

产品发布 · 全球洞见 · 跨界对话

This experience changed how I think about marketing. A strong idea is only the starting point — it has to be translated into clear communication, coordinated across multiple touchpoints, and tested in real interactions with audiences.

→ What changed for me

Clarity is strategic.

Complex products become valuable only when people can understand them quickly. Simplifying information became part of the strategy, not just an editing task.

Consistency needs coordination.

A visual identity only works when content, design, space and people move in the same direction.

Different events play different funnel roles.

FOSHO DAY built narrative and relationships; Kalodata focused more directly on product exposure and lead generation.

Strategy has to survive reality.

Real venues, timelines and unexpected changes showed me that good marketing must remain effective beyond the presentation deck.

INTERNSHIP 02 — GLOBAL SOURCES

B2B BUYER ACQUISITION & ENGAGEMENT · 2024

ABOUT GLOBAL SOURCES

Global Sources is a B2B sourcing platform connecting international buyers with verified suppliers across Asia through trade shows, digital marketplaces, and sourcing services.

EXHIBITION CONCEPT:

Market Opportunity

¥50.8B Fragrance Market
54.1% Emotional Value
150B+ #Dreamcore Views

Gen Z consumers increasingly seek emotional value and self-expression through fragrance. Meanwhile, digital subcultures such as Dreamcore are shaping new visual and cultural identities.

- EMOTIONAL CONSUMPTION
Fragrance as identity & emotional expression
- DREAMCORE CULTURE
Nostalgia • liminality • surreal aesthetics
- SOCIAL SHARING
Visual storytelling drives discovery

Research 1:

THE RISE OF EMOTIONAL CONSUMPTION

EMOTION DRIVES ENGAGEMENT

Positive emotions such as healing and companionship show stronger engagement than negative emotions such as loneliness and stress.

THE EMOTIONAL ECONOMY IS GROWING

Emotional-wellness interest continues to rise, indicating growing demand for products that offer psychological and experiential value.

WHY FRAGRANCE?

Scent is closely linked to memory and emotion, making fragrance a natural medium for translating abstract feelings into personal experiences.

OPPORTUNITY:
Turn emotional needs into a sensory brand experience.

Data compiled based on 2025 reports by Tungee Big Data Research Institute and KPMG.

RESEARCH 02: WHY DREAMCORE?

A VISUAL LANGUAGE OF NOSTALGIA

Dreamcore blends familiar spaces with surreal imagery, creating a sense of nostalgia, ambiguity and escape from reality.

A DIGITAL ESCAPE FOR GEN Z

Its nostalgic and liminal aesthetic resonates with young audiences seeking emotional escape from the pressures of everyday life.

70% based on manual coding of 200 sampled comments. →

Consumer Insight

Understanding Gen Z fragrance behaviour

BEHAVIOUR SHIFT

- 83% - Regular fragrance users own 8-12 scents
- 73% - Use fragrance 3+ times per week
- 80% - Choose scents based on personal aesthetics & memory

DIGITAL DISCOVERY

- 45% - of fragrance purchases influenced by TikTok
- 64% - use Instagram for brand inspiration
- 78% - prioritise travel-size or discovery sets when trying new scents

EMOTIONAL NEEDS

- 42% - associate fragrance with emotional wellbeing & self-care
- Growing interest in **bedtime scents and calming fragrance rituals**

KEY INSIGHT

Gen Z is moving from a signature scent mindset toward emotion-led fragrance rituals.

Opportunity → Build a Dreamcore discovery set for different moods and moments.

XIYUN APPLICATION

Dreamcore-inspired pop-ups where each space represents a different scent world.

LE LABO — OVERHEARD

Insight
Everyday conversations become authentic, community-driven brand content.

XIYUN APPLICATION
Collect anonymous “dream letters” and turn them into social storytelling content.

FRAGRANCE × FOOD COLLABORATION

Insight
Translating scent into taste extends the sensory experience beyond fragrance.

XIYUN APPLICATION
Limited Dreamcore-inspired gelato flavours paired with fragrance launches.

REFLECTION

What I learned: Strong brand concepts need to connect cultural insight with product depth, consumer relevance and executable experiences.

VISITOR FLOW

The booth worked visually in 3D, but the entry journey and dwell-time strategy were underdeveloped.

Next step →

Add a low-friction scent test or interactive hook at the entrance.

PRODUCT DEPTH

The brand story was more developed than the fragrance products themselves.

Next step →

Build complete scent profiles, usage occasions and product stories before expanding campaign content.

POSITIONING CLARITY

Dreamcore created strong differentiation, but the concept risked becoming too niche and visually driven.

Next step → Define a clearer bridge between niche culture and mainstream fragrance needs.

Illustration IP × Creative Merchandise Design

Life Series | From Original Illustration to Creative Merchandise

PROJECT CONTEXT

Starting from my original illustrations, I explored how a personal visual style could develop into creative merchandise and social media content. The project connects illustration, product application and audience-facing communication, allowing me to test the potential of building a small-scale personal IP.

PROJECT OBJECTIVES

- 1. Build a distinctive and consistent illustration language
- 2. Explore how illustrations can be adapted across merchandise formats
- 3. Use Xiaohongshu content to test audience response and communication potential

MY ROLE

- 1. Original illustration & visual system development
- 2. Creative merchandise design and AI-assisted product visualization
Washi tape, notebook and tote bag applications
- 3. Xiaohongshu content creation and personal IP development

FROM ILLUSTRATION TO CREATIVE MERCHANDISE

How I extended a visual concept into a broader creative project

01 CREATIVE SYSTEM

Notebook
Tote Bag

03 CONTENT & DISTRIBUTION

Xiaohongshu content creation
Illustration
sharing
Creative process
Merchandise-related content

Personal website (in
progress)
Instagram content (in
progress)
Original merchandise
promotion (planned)

BUILDING MY OWN ILLUSTRATION IP

EARLY MARKET SIGNAL

In March 2026, I began consistently sharing my original illustrations on social media. A few months later, a café owner contacted me about developing co-branded merchandise. Although I decided not to proceed because the collaboration was still immature, the inquiry showed me that original content could move beyond being viewed online and **begin to generate real product and commercial possibilities.**

MY IP — dandanting

A soft, playful visual world built around small emotions, imagined spaces and ordinary moments. Through recurring colours, characters and scenes, I aim to develop a recognisable personal illustration language.

THREE VISUAL SERIES

Together by the Sea — summer, the seaside and friendship.
Forest Encounters — forests, plants and imagined creatures.
Small Joys of Everyday Life — food, interiors and meaningful everyday moments.

NEXT STEPS

Continue publishing original illustration content
Develop a personal portfolio website
Expand content distribution to Instagram
Test additional merchandise formats
Explore more mature brand collaborations

OWNED MEDIA EXPANSION

I am developing a personal website as an archive for my work, an introduction to the IP, and a future entry point for collaboration opportunities.

FROM ILLUSTRATION TO MERCHANDISE

Extending 2D illustrations into everyday product formats

A WASHI TAPE — Continuous pattern adaptation
B TOTE BAG — Hero illustration application

NOTEBOOK SERIES

Characters and environments from the Life Series were extended into notebook covers and interior pages, using a more restrained layout system for everyday use.

PROCESS NOTE

Original illustrations were created in Procreate. AI tools were used only for product visualization and mockups.

PROJECT

RETHINKING BIT ZHUHAI'S SOCIAL MEDIA Digital Marketing & Content Strategy · 2024

CONTEXT /

Following the university's institutional transition, its brand identity and social media presence faced new communication challenges.

OBJECTIVES /

Strengthen brand recognition
Increase student engagement
Support admissions communication

MY ROLE /

Market Research
Social Media Analysis
Content Strategy
Campaign Ideation

SOCIAL MEDIA AUDIT

Research Findings & Problem Diagnosis

Three gaps revealed one underlying issue: the lack of a coherent content strategy.

01 · BRAND CONFUSION

Multiple institutional accounts created an unclear brand identity and fragmented audience recognition.

02 · CONTENT GAP

Communication relied heavily on static posts, with limited short-form video, livestreaming or trend-driven content.

03 · ENGAGEMENT GAP

Student-generated content remained disconnected from official channels, limiting participation and organic reach.

PROJECT

DATA-DRIVEN CONTENT OPERATIONS

Campus Media · BIT Zhuhai

BACKGROUND

Campus content had become increasingly repetitive, with limited emotional resonance and low reader retention. The challenge was to identify what audiences actually responded to and build a more data-informed content approach.

OBJECTIVES

Increase article readership
Identify high-performing content patterns
Build a data-informed topic selection process

MY ROLE

Content Strategy & Creation
Performance Tracking & Analysis
Audience Engagement

CONTENT OPERATIONS PROCESS

From topic selection to performance-led iteration

01 CONTENT CREATION

Planned content around campus life and key academic moments, managing the process from topic selection to publication.

02 PERFORMANCE TRACKING

Tracked readership across posts and compared performance patterns to identify high-response topics.

03 CONTENT ITERATION

Shifted the content mix toward practical, timely information based on observed audience response.

WHAT THE DATA REVEALED

Utility-driven content consistently outperformed emotional storytelling

1.8K → 13K

7× READERSHIP\

KEY INSIGHT

Timely, practical topics — including academic calendars, exam-related content and freshman guides — generated significantly higher readership than **purely emotional storytelling**.

STRATEGIC SHIFT

Emotional storytelling → Utility-led content

I shifted topic selection toward **high-intent, practical information** while retaining emotional content for brand affinity.

01 / INTERACTIVE CONTENT

Designed quiz-style posts using visual Q&As and multiple-choice interactions to increase participation and make campus information more engaging.

PROJECT

COCA-COLA FRESHMAN CAMPAIGN Campus Brand Activation Strategy

PROJECT TYPE

Campus Brand Activation

BRAND

Coca-Cola

DURATION

4 Weeks

MY ROLE

Consumer Research / Campaign Strategy /
Visual Design / Event Planning

OBJECTIVE

Build stronger brand affinity among Gen Z
students
through an interactive freshman experience.

WHY FRESHMEN, WHY NOW?

The first weeks of university are not just an orientation period — they are a moment of intense social connection.

TARGET AUDIENCE

18–22-year-old university students
with freshmen as the primary audience.

THE OPPORTUNITY

Freshmen are actively forming new friendships and routines, creating a natural moment for Coca-Cola to become part of their first shared campus experiences.

Mobile-first
Socially driven
Experience-oriented

INSIGHT

Belonging matters more than function.

For freshmen, beverage consumption is embedded in social moments — meeting new people, sharing meals and exploring campus life.

CONSUMER RESEARCH

210 valid responses · University students · 2024

HIGH PURCHASE FREQUENCY

70% purchased Coca-Cola at least three times per week.

SOCIAL CONSUMPTION

62.2% were more likely to purchase beverages during social occasions such as gatherings and group meals.

EMOTIONAL MOTIVATION

56% associated Coca-Cola with refreshment, relaxation and taste.

PRICE SENSITIVITY

43.9% considered campus pricing reasonable, while 39% remained price-sensitive.

LOW CAMPUS VISIBILITY

Only 45.1% felt Coca-Cola was easy to find on campus.

KEY INSIGHT

Strong demand, weak visibility.

Coca-Cola already had strong purchase frequency and social relevance, but limited campus availability created friction at the point of purchase.

RETAIL AUDIT

4 campus retail locations · 6 Coca-Cola SKUs

OPPORTUNITY

Make Coca-Cola easier to find, easier to notice, and easier to share.

01 / LIMITED ASSORTMENT

Sugar-free variants were available in fewer than half of the surveyed stores, while glass bottles were available at only one location.

02 / VENDING GAP

Campus vending machines offered only one Coca-Cola SKU, despite being located in high-traffic areas.

03 / PRICE WAS NOT THE MAIN BARRIER

Price differences remained within approximately RMB 0.5 across channels, suggesting that availability and visibility — rather than price — were the primary barriers.

Store Name	500 ml	330 ml	Sugar-Free 500 ml	Sugar-Free 330 ml	2 L	Glass Bottle
Wanchang Supermarket	¥3.5	¥3	¥3.3	¥3	¥6.5	N/A

CAMPAIGN CONCEPT

STEP INTO THE CIRCLE

Start your first campus memories
with Coca-Cola.

THE BIG IDEA

Turn the unfamiliar campus into a shared social playground.

Inspired by the idea of a “social circle,” Red Circle transforms physical spaces across campus into opportunities for freshmen to meet, interact and create shared memories.

EXPLORE → CONNECT → SHARE

Red circles placed across campus
invite freshmen to pause, answer an
icebreaker question and connect
with someone new.

—RED CIRCLE EXPERIENCE

Large Circle

Hosted social activation
→ Icebreaker challenge
→ Coca-Cola reward

Small Circles

Self-guided touchpoints
→ Scan QR code
→ Answer a prompt
→ Share the moment

ONLINE-OFFLINE LOOP

INTERACTIVE JOURNEY

Turning campus discovery into a social game.

6 CAMPUS TOUCHPOINTS

Red Circle checkpoints are placed around iconic campus locations. Students scan a QR code to check in, answer a social prompt and track their progress.

01 / ICEBREAKER PROMPTS

Social questions encourage students to pause, talk and connect.

02 / CHECK-IN PROGRESS

Completing five of six locations unlocks a limited-edition reward.

03 / CAMPUS MESSAGE WALL

Students leave anonymous messages at each location, creating a collective memory of freshman year.

Screen 02 · Check-in Detail + Message Wall

HERO VISUAL

FROM CONCEPT TO EXPERIENCE

Translating the Red Circle idea
across campaign touchpoints.

CAMPAIGN TOOLKIT

Signage · Booth · Tote
bag · Badges · Check-in
materials

EXPERIENCE MOCKUP

Proposed Red Circle activation
at the freshman dormitory plaza.

AI-assisted visual prototyping was used during concept
development.

REFLECTION & NEXT ITERATION

01 / RESEARCH VALIDITY What I learned

Some survey questions were too broad, limiting the precision of the findings.

Next iteration

Add more open-ended questions and conduct small-scale interviews to validate behavioural insights.

02 / PARTICIPATION FRICTION What I learned

Requiring an 80% correct response rate could create unnecessary friction for freshmen unfamiliar with one another.

Next iteration

Reward participation rather than accuracy, shifting the experience from competition to connection.

03 / CONTENT AMPLIFICATION What I learned

What I learned

The original plan relied too heavily on students voluntarily sharing content after the offline activation.

Next iteration

Introduce photo-ready touchpoints and on-site content capture to create a stronger offline-to-online amplification loop.

BEYOND THE WORK

Academics, leadership and campus involvement.

ACADEMIC & AWARDS

National University Business Negotiation
Competition — First Prize
University Scholarships — First / Second Prize
Top 5% in Major

LEADERSHIP

Publicity Team Lead, Youth Volunteer Association
2023.09 – 2025.10

Led visual communication and promotional execution
for major campus events, while coordinating
volunteers and on-site responsibilities across 10+
activities.

CAMPUS EXPERIENCE

Student Assistant, Career Development Center
2023.10 – Present

Supported 30+ online employer presentations and
spring recruitment events, while assisting with
graduate employment data and content distribution.

Thank you.
